17HPC-069: 318 GEAR STREET – DEMOLITION REQUEST.

Discussion and possible action on a request by Steve Monahan to demolish the house as:

- The foundation area: the north wall is crumbling, the south wall is supported by jacks, a portion of the west wall has caved in, the addition foundation has collapsed.
- The roof is in need of having new shingles, some rafters are damaged. The chimney is collapsing, the soffits are rotten and or missing.
- The wall on the west side leans, the south-east wall has a twist, one-half of the north side leans and is bowing and the bricks have split. The east and west walls lean, and have a bow. The south wall leans to the north. Most of the walls have the facing gone.
- The windows are cracked, or twisted with rotten wood.
- Some of the doors are rotted, and non-closable.
- The electrical and plumbing are nonfunctional and rodent destroyed.
- The interior walls are drywalled and painted, cracked, falling down, and moldy.
- The interior floors are of a variety, and all destroyed by animals.

In summary: the brick has been destroyed and is not salvageable, foundation needs a complete remake. All resulting in a non-economical repair of the home. The home has become a non-contributing home with irreversible damage.

Steve Monahan stated:

- That he has watched this house deteriorate over the years. The house leans, bows out/in, twists, and has bricks in the yard.
- This house is beyond economical repair.

Gerald Deininger stated:

- It is not cost feasible to repair. The foundation in front of the house it is very deteriorated as well as the rest of the house.

Adam Johnson stated:

- If they do a demolition that the owner should have some requirement for record of the building with photographic evidence before it is taken down.

Terry Cole stated:

- That this house could be saved but it is not economically feasible. Probably around \$150,000 for the structure and brickwork which would include nothing inside.

Todd Walburg stated:

- This house is an eyesore, and it is an abandoned house. He proposes to demolish it.

Joe Hannaman stated:

- This house looks terrible and would like it to be demolished.

Steve Repp stated:

- Someone may want to save this house, and once again stated that his house should not be demolished.

Steve Monahan stated:

- That he is all about history, he has restored a home, and sometimes somethings need to be let go. This house is not a contributing house due to its condition. Monahan wants to make the neighborhood look better and help the community.

Adam Johnson stated:

- That he has saved a house that was going to be torn down. Maybe set a time limit to sell the house to be fixed before allowing demolition.

The HPC Board stated:

- The

MOTION: Albaugh moved, seconded by Wiener to close the public hearing.

The motion passed by voice vote.

Discussion of the motion:

Albaugh discussed with Deininger what he thought about how long this house would stand? Deininger could/would not say except that the brick is a soft brick.

Wiener asked if this is the only option and if in 2010 this house was not neglected; how did it get so bad in the past two to three years by falling apart. Monahan stated that the owners have not been out in a very long time – many years.

Gehrts stated that he would like the bricks saved, and the rocks in the foundation used in the new structure. Take photos and measurements to document the history of the house. The city lot would be utilized in a manner that is beneficial in that neighborhood and for the people who live in that area.

Brown stated that this board had forced other property owners to rebuild their properties in the past yet what you are saying (Gehrts) is that you would like to make an exception this time.

Brown stated that the owners have not tried to find someone to rebuild this house.

Johnson stated this board has the ability to delay the demolition for a period of time. If nothing surfaces during by the end of that period of time, then we know that it is not feasible to rebuild.

Brown stressed the fact that by taking that lot and knocking the structure down make it more valuable than having to restore what is there.

Dennerlein stated that this is an architectural treasure, try to see if someone would like to take on the task of restoring it.

MOTION: Albaugh moved, seconded by Gehrts to approve the demolition.

Roll call was:

Albaugh	Yes
Gehrts	Yes
Wienen	No
Johnson	No
Dennerlein	No
Brown	No

The motion was denied.
