Beth,

Please review the above link from CDC regarding Lyme Disease reporting. It gets very confusing as to what counts as a case for surveillance purposes vs. actual cases that are MD diagnosed and treated. The totals for Jo Daviess County are:

2006- 1

2007- 9

2008- 7

2009- 1

2010- 0

2011- 0

2012- 4

2013- 14

2014- 8

2015- data is not yet finalized but when it is, I will send it to you. It looks like it will be around the same number as 2014.

I am unable to break this number down geographically but the case counts are throughout Jo Daviess County.

I hope this helps. Please feel free to contact me if you have any questions or concerns.

Respectfully,

Lori Stangl RN BSN
