*101 Green Street, PO Box 310, Galena, Illinois 61036*

## **MEMORANDUM**

TO: Honorable Mayor Renner and City Council

FROM: Mark Moran, City Administrator 

DATE: March 30, 2023

RE: Archery Deer Hunting Program—Year End Report

January 15 marked the end of the fifth year of the Archery Deer Hunting Program. The program was established to better control the deer population after a January 2018 aerial count located 136 deer in the city limits. The Illinois Department of Natural Resources (IDNR) has suggested that 40-80 deer would be a reasonable biological carrying capacity in the Galena city limits. I am writing to provide you with the results of the 2022-23 hunting program.

### **Recap**

The 2022-23 program began on August 8 with the city council reauthorizing the program. Numerous preparatory activities and public notifications occurred thereafter and up to the beginning of the hunting season on October 1. The full program schedule is included as Appendix A.

Prior to the start of the hunt, the city council approved 12 hunting sites, eight on private property and four on city-owned property. This was an increase of two hunting sites from the previous year. The two new sites are both owned by Andrew Stangl on Donnegan Street.

To participate in the program, each hunting applicant must successfully complete a bow shooting proficiency test. Hunters who qualified in any of the first four years were not required to qualify this year. A total of 18 hunters qualified for the 2022-23 program, down from 26 the previous year. There was one new hunter accepted into the program. Each returning hunter was given the option of hunting the same site as the previous year. Each hunter could only hunt their assigned site.

The archery hunting season opened October 1, 2022 and ended January 15, 2023. Each time a hunter planned to hunt; the hunter was responsible for contacting the police department in advance of the hunting. The call log of all planned hunting activity as recorded by the Police Department is provided as Appendix B.

## Results

A total of 10 deer were taken during the season by six different hunters from five of the hunting sites. Nine of the deer were doe and one was a buck (a hunter could only take a buck after taking at least two doe). A map is included as Appendix C showing the number of deer taken at each location. Each deer was taken with one arrow shot. One deer was mortally wounded but not able to be located and retrieved. All arrows were retrieved by the hunters.

Twelve hunters did not take any deer. Seven of those hunters did not hunt. A complete list of the hunting activity resulting in the taking of deer is shown in Appendix D. A comparison of the number of hunters, those who killed deer, and the total deer taken is presented in Table 1 below. Since the program inception in 2018, 98 deer have been culled.

Table 1. Hunting Activity: 2018-2023

Year	Hunters Qualified	Qualified Hunters who Hunted	Hunters who Culled at Least One Deer	Number of Deer Killed
2018/19	12	8	7	22
2019/20	27	18	12	30
2020/21	30	20	11	24
2021/22	26	15	6	12
2022/23	18	12	6	10

In April, hunters who successful tagged deer will be reimbursed \$15.50 for each tag. With 10 deer tagged, the total reimbursement cost will be \$150.50.

## Deer Count

Lack of consistent snow cover following the end of the 2022/23 hunting season prevented an aerial count of deer. The count is not effective without full coverage of at least several inches of snow. The results of the deer count from all previous years are shown in Table 2 below.

Table 2. Aerial Deer Count: 2018-2023

Year	Deer Counted in City Limits	Percent Change
2018	136	-
2019	211	55%
2020	200	-5%
2021	Cancelled	NA
2022	140	-30%
2023	Cancelled	NA

### Deer Incidents

Since 2010, the Police Department has tracked reports of deer involved in accidents with vehicles, found deceased, injured where euthanizing is required, and injured but unable to be located. The total reported incidents for each year and the percent change from year to year is shown in Table 3 below. In 2022, there were 22 reported incidents. This represents a 27 percent decrease from 28 in 2021 and is considerably lower than the high of 55 in 2016. The full report may be found in Appendix E.

Table 3. Reported Deer Incidents: 2010-2022

Year	Reported Incidents	Percent Change
2010	17	
2011	20	18%
2012	22	10%
2013	27	23%
2014	24	-11%
2015	39	63%
2016	55	41%
2017	43	-22%
2018	38	-12%
2019	45	18%
2020	49	8%
2021	28	-42%
2022	22	-27%

### Future Hunting

I offer the following suggestions should you decide to continue the hunting program in 2023-24:

1. Renew the current city hunting sites and private sites with owner consent.
2. Offer each hunter who successfully hunted his site the first option for hunting the site in 2023-24.
3. Only accept new hunter applications if current hunters choose not to reapply. One exception would be that new hunters could be accepted upon the request of the owner of any approved hunting site.
4. Encourage all hunters to actively hunt their designated property. If a hunter does not hunt for two consecutive seasons, they would lose hunting eligibility.
5. Continue to reimburse hunters for the cost of the IDNR tag for each deer taken.
6. When snow cover allows, continue the aerial count to help assess the effectiveness of the hunting program and the need to continue to the hunting program.

### Thank You

Finally, I would like to thank all the hunters in the program who completed all the steps in the qualifying process, submitted all required information, kept the police department informed of their activity, and took their responsibility to hunt safely very seriously. The police department also deserves thanks for working closely with the hunters to record all activity during the four-month season. Finally, thanks to Matt Oldenburg for producing the maps for the program.

## APPENDIX A

Table 1. 2022-23 Archery Deer Hunting Schedule

No.	Activity	Start Date	End Date
1	Private hunting site application period	June 1	July 15
2	Hunter Permit application period	June 1	July 15
3	Mail letters to property owners within 100 yards of proposed hunting sites inviting comments at the August 8 city council meeting	July 18	July 18
4	Approval of city-owned and private hunting sites by council	August 8	August 8
5	Hunter proficiency qualification	August 18	August 18
6	Hunter certification deadline, including submission of Illinois license, habitat stamp, and permit(s)/tag(s)	September 16	September 16
7	Mail letters to property owners within 100 yards of hunting areas giving notice of hunting area and season dates	September 22	September 22
8	Archery hunting season	October 1	January 15, 2023
9	Aerial count of deer population (weather permitting)	January 16	January 31
