

CITY OF GALENA, ILLINOIS

101 Green Street, PO Box 310, Galena, Illinois 61036

MEMORANDUM

TO: Honorable Mayor Renner and City Council

FROM: Andy Lewis, City Engineer *A Lewis*

DATE: 9 April 2018

RE: Painting of Fire Hydrants – Approval of Quotes

Request for quotes (RFQ) for unit costs to paint city fire hydrants were sent to three contractors. The RFQ was also posted to the city website. Two contractors submitted quotes as detailed below:

Contractor	Unit Cost \$
All Star Power Wash	172.00
US Veteran Contracting Services	532.69

This project involves the cleaning, priming and painting of fire hydrants at various locations throughout the city. All work will be coordinated with American Water and the Fire Department.

The quote from All Star Power Wash for \$172 per hydrant is the best value option. This company has completed work for the city during the past few years, including painting of Grant Park footbridge and various street light columns.

We have \$10,000 budgeted this year and \$10,000 in the new financial year for painting fire hydrants. The combined budget of \$20,000 would allow painting of 116 hydrants.

I recommend the city council approves a contract with All Star Power Wash to paint fire hydrants at \$172 per unit for quantities detailed above.
